Dear Dennis,

As you can see from his letter, Secretary Brown was appreciative of the background data and conversational themes we provided him for his recent visit to Yugoslavia. Although I know that a number of NFAC analysts contributed to the package, I understand you made a key input in the form of a memorandum covering the high command of the Yugoslav armed forces, as well as alerting the Secretary to Yugoslav concerns about the neutron bomb.

Thank you for your thoughtful contribution.

Dear Judy,

As you can see from his letter, Secretary Brown was appreciative of the background data and conversational themes we provided him for his recent visit to Yugoslavia. Although I know that a number of NFAC analysts contributed to the package, I understand you made a key input, especially in highlighting our information gap on the Yugoslav Territorial Defense Force. Secretary Brown obviously has done his best to be a responsive collector.

Thank you for your thoughtful contribution.
